

**CAROLYN J. AGRESTI, M.D.**

EAR, NOSE AND THROAT, INC • HEARING AND BALANCE, LLC

**Please take this quick survey to check your hearing health.**

1. Do people seem to mumble or speak in softer voices than they used to?
2. Do you have difficulty following conversation in noisy surroundings like in a restaurant or at a party?
3. Do you find yourself asking people to repeat what they say?
4. Do you find you need to turn up the volume on your TV so much that others comment on its loudness?
5. Do you sometimes avoid taking calls on the telephone because it is difficult to hear what people are asking?
6. Do you have difficulty pinpointing the direction of where a sound is coming from?
7. Has someone close to you mentioned that you may have an issue with your hearing?
8. Do you feel you use a lot of effort just to follow everyday conversations?
9. Do you feel you have to strain to hear everything that is said in a meeting?
10. Do you feel that you are missing out on activities/events you used to enjoy due to problems with your hearing?
11. Do you sometimes answer a question and realize afterwards that you did not understand the question correct?
12. Do you feel you must really concentrate to hear someone talk or whisper?

If you answered **yes** to any of these questions, we recommend a hearing evaluation. Please call us at **(561) 899-3822** to schedule a complete hearing evaluation or go to our Patient Portal to request an appointment.
